

## Adult Mesenchymal Stem Cells in Regenerative Medicine

<http://www.msc2007.net>

**August 27-29, 2007**

Thank you for joining over **250 scientists and physicians** attending MSC 2007 from **22 countries around the world** including Australia, Brazil, Germany, Italy, Korea, and Russia. You will see 100 posters covering topics such as gastric epithelium regeneration, culture of umbilical blood derived stem cells, treatment of ischemic brain injury, and isolation of dental pulp stem cells. We have commercial exhibitors including Celgene, Invitrogen, and Osiris to enable you to view products supporting stem cell research.

Your research will reach a worldwide audience through a presentation during one of our sessions. In order to minimize technical difficulties during the conference, we request you do the following:

1. **Email** [registration@mscconference.net](mailto:registration@mscconference.net) your PowerPoint presentation saved from a **PC computer no later than 5PM EDT on Friday, August 24<sup>th</sup>**. There have been numerous problems when MAC users converting a file to PC only to have their graphics severely changed. With your file, we will have our laptop cued up with your presentation when it is needed.  
Alternatively, you can mail a CD with your presentation addressed to Michael Gilkey, 10900 Euclid Avenue LC: 7284 Cleveland, OH 44106.
2. **Size Limitation:**
  - a. Invited Lecturers having 30 minutes to present are expected to keep at least 5 minutes of question and answer time during their 30 minute time slot. Presentations should be **no more than 30 slides long**.
  - b. Podium Presenters having 15 minutes to present are expected to keep at least 5 minutes of question and answer time during their 15 minute time slot. Presentations should be **no more than 15 slides long**.
  - c. Short Talk Presenters having 5 minutes will not have any time devoted to questions and answers. Presentations should be **no more than 5 slides long**.
3. **Video:** Anyone presenting video or computer animation mail email/mail these files separately so that correct linking within the PowerPoint presentation is maintained. If these files are too large to email, come to the Registration Desk on the second floor of the Marriott hotel near the elevators with your computer, USB Drive or CD and we will make sure this is properly linked to your presentation.
4. **Corrections to your presentation** can be made up to 30 minutes prior to the start of your session in the Speaker Ready Room. Please contact any of the MSC 2007 staff to make us aware of this situation.

We look forward to hearing your research and to the dialogue it will create at MSC 2007. If you have any questions or concerns please email Michael Gilkey at [registration@mscconference.net](mailto:registration@mscconference.net). Thank you very much for your participation and adherence to these guidelines.

Sincerely,  
Michael Gilkey  
216-368-2079
